Each year, we as students have new challenges put before us. No matter the degree of difficulty, North Lamar students always seem to come out on top. The pace seems slow in the beginning, but as homework starts to mount, we find ourselves hurriedly moving along the track of another school year. We see ourselves pushing forward toward our high set goals, looking to the future, and continuing "On the Move."

Class of '88 Dedicates *Yacht*

Dedicated to many activities, this educator balances her time between her job, her family, service, and church work.

Well versed in such mathematical terms as pi, slope, or conics, this teacher is respected and loved by both students and faculty members. Many nights you'll find her working late preparing for a Keywanette meeting, a Senior Class project, or tutoring for her next test.

She is more than just a teacher; she is a friend, sponsor, and mother. For all of her time, care, consideration, and "spirit raisin," we the Class of 1988 dedicate this annual to

Moving on through the month of March, students could be found engaged in a wide variety of activities.

UIL was a high priority for many - both students and sponsors - as the academic teams traveled to the District Meet and winners advanced to Region. In addition, One-Act Play cast members diligently prepared for the public performance and district competition of Shakespeare's *The Tempest*. The hours of rehearsal time proved to be worth it as Director Mrs. Laura Parker stated, "The most exciting moment was to see the audience . . . enjoy and appreciate the show."

Science students finished their Science Fair projects and proudly exhibited their findings to the scrutiny and praise of fellow students, teachers, administrators, and parents.

March, however, was not all work; it was also filled with its share of spring's fun and frolic. Student Council sponsored a Sadie Hawkins-Beach Party Dance, Keywanettes attended spring convention, and all enjoyed a week of rest, sun, and fun, known as SPRING BREAK!

Spring was in the air, and Panthers were anxious to get involved. Athletics including Baseball, Track, Tennis, and Golf were off and running. Leading district play Varsity Baseball team was in the midst of an outstanding season; simultaneously, boys' and girls' track participated in and took honors at the District meet at Paris High. These athletes were also honored for their achievements at the annual All-Sports Banquet.

As predominant as athletics was the presence of academics in the form of UIL competition in the areas of band, choir, literary, speech, math, and science. Through practice and determination, all divisions from the UIL team, including band, went to Regional competition at North Texas State. From the 18 who advanced to Region, eight traveled to Austin for state competition. In competition of a

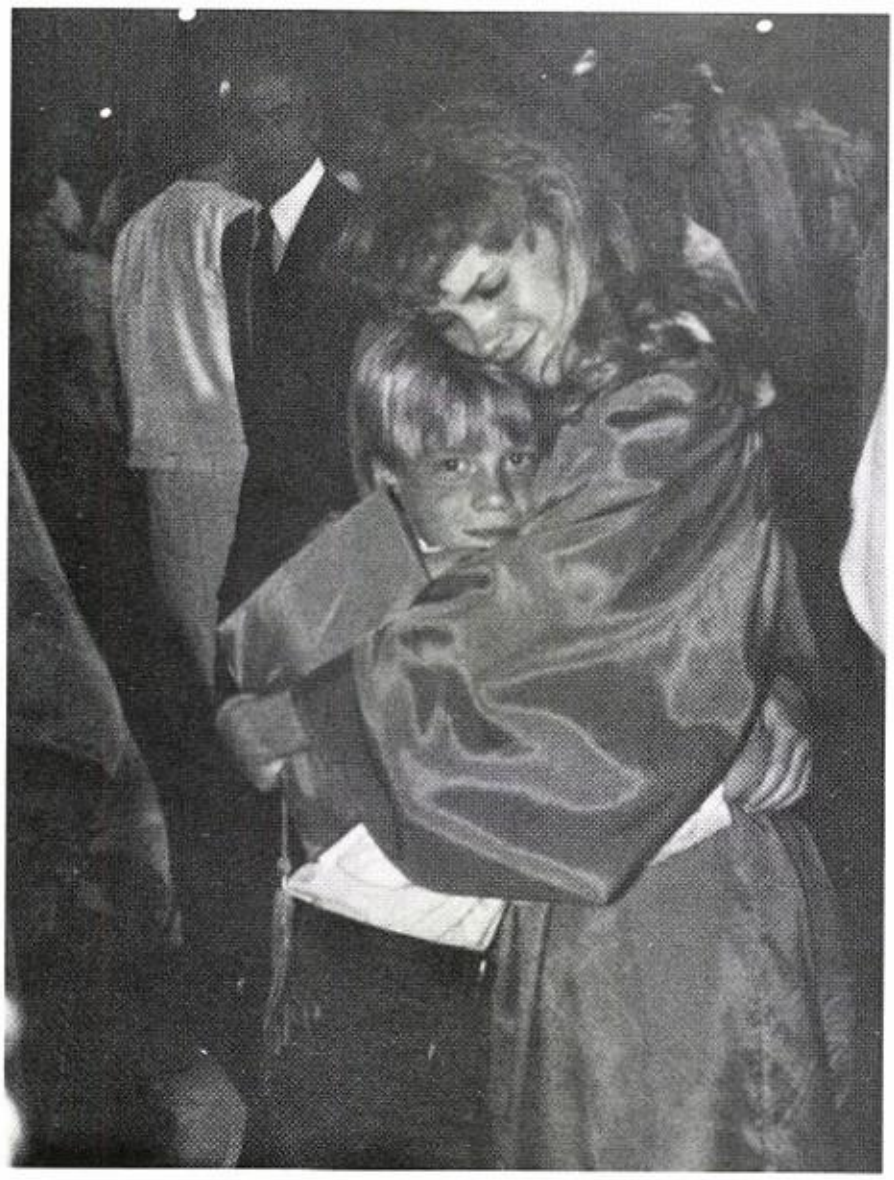
Class of '87 Presents

Peformance of Senior Class play *Willy Velvet, Homocide Detective* marked the beginning of May. Despite the obviously male title role, Missy Payne portrayed Willy; in addition, other Senior girls put on Dad's suspenders and transformed into male parts. Rodney Franklin was the lucky one - the only guy in the girl cast.

"Never Say Good Bye" was the theme of the Junior-Senior Prom. "For me, Prom was one of the most memorable events of the year. It is one of the few times when a couple can experience a formal evening and still be surrounded by friends," said Erik Moore, Junior Class Vice-President.

As the year drew to a close, annual Baccalaureate and Graduation ceremonies were warting the minds of the class of '87. To them, May signifies a beginning and an end. A beginning of a new lifestyle, college, work, and freedom from parents, and an end to years of school. But friendships made through high school will be cherished for an eternity, and the memory of the class of '87 will always be treasured.



Graduation: Stacie McOglan shares her big moment with her little brother.

Hey Babe! The announcer (Cherie Bright) tries to charm one of the commercial singers (Danna Norwood) as member of the cast (Kelly Barolet) looks with a jealous glance.

Beta Talent Team Wins

Summer of 1987 was enthusiastically greeted by students and teachers alike after yet another challenging school year. The start of summer didn't mean the end of school spirit or excitement, though, as the North Lamar Band traveled to Florida to march at Disney World while enjoying the fun and sun of fabulous Florida.

Closer to home, North Lamar Baseball Team defeated Paris High in Regional competition and later traveled to Austin to compete in State. Panthers, however, were defeated by Ft. Worth Brewer 8-1, in the State Semi-Finals.

Also competing far away was North Lamar Beta Talent Team who journeyed to Louisville, Kentucky, to bring back first place in national competition.

As summer dwindled down to a few precious weeks, North Lamar football and cross country teams toiled out in the hot summer sun along with the band preparing for the upcoming school year.

Classes Begin On

On September 2, the halls of North Lamar awoke with new life. Upperclassmen scuttled about, happy to see old friends and teachers, while Freshmen tediously studied schedules and desperately searched for the right rooms.

Back into the regular routine, North Lamar saw class meetings, volleyball, club meetings, school pictures, football games, and of course classes.

Constantly on the move, North Lamar underwent many changes during September; for instance, students and faculty welcomed Mr. James Dawson as the new high school principal; and Seniors no longer had to arrive at 6 A.M. for the privilege of parking on the front parking lot because each one randomly drew for an assigned space. All changes, however, were not happy ones, as everyone was faced with the death of a beloved friend, Tony Johnson.

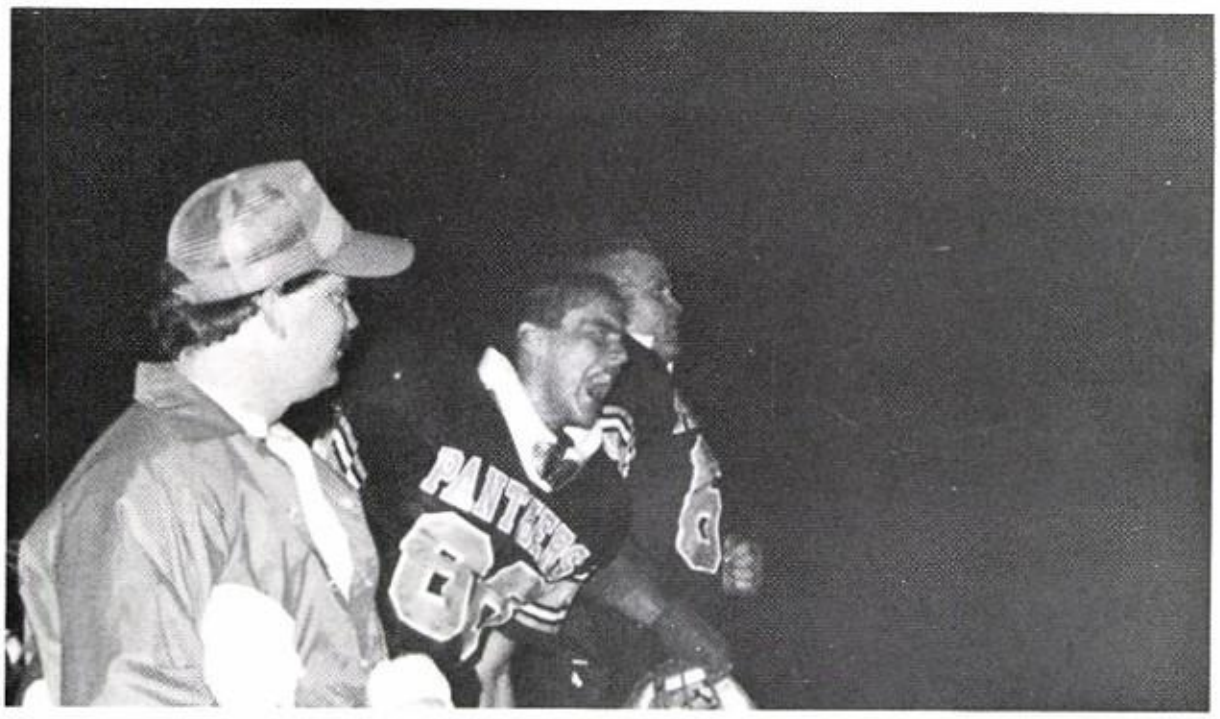
Don't Mess with Texas: Cheerleaders announce the Panthers' confidence with a bold run through message.

Homecoming 1987 will be recalled as both a cheerful and remorseful occasion.

The hum of busy students reverberated throughout the hallways as club members added the final touches to decorations for the traditional pep rally and Homecoming dance. Band members strived to learn a new entertaining show for half time, while football players endured strenuous workouts in hopes of maintaining their winning streak. But in the midst of the festivities also could be heard the tears of many, as students and faculty remembered Senior Tony Johnson who sadly passed away the Sunday prior to Homecoming.



"We're Bad!" Coach Jimbo Chadwick grins as B.J. Kounousky and Robert Edwards cheer on their teammates toward the Panther victory over the Hugo Buffaloes.

Under an intense strain, Juniors took TEAMS tests in order to demonstrate their mastery of Math and English skills - a requirement for graduation. But all work and no play makes NL students . . . ready to Dance! Student Council happily obliged by sponsoring a dance to benefit the Wishing Well after the Rockwall football game.

Senior Girls Defeat Juniors

November marked the beginning of the holiday season, and the spirit of students certainly reflected it.

All attention was focused at the start of the month on the crosstown showdown with Paris High. The football team, despite a valiant effort, closed their season with yet another loss.

Girls' cross country team, however, was experiencing yet another winning season. All of their hard work, determination, and miles paid off as they captured another state title, and Sabra Lands ran in with an individual state championship.

Seniors and Juniors began preparing for the annual Powderpuff football game, early in the month. As the big game day grew closer, rain became more apparent. The coaches were forced to in exchange turn in the pigskin for the round ball.

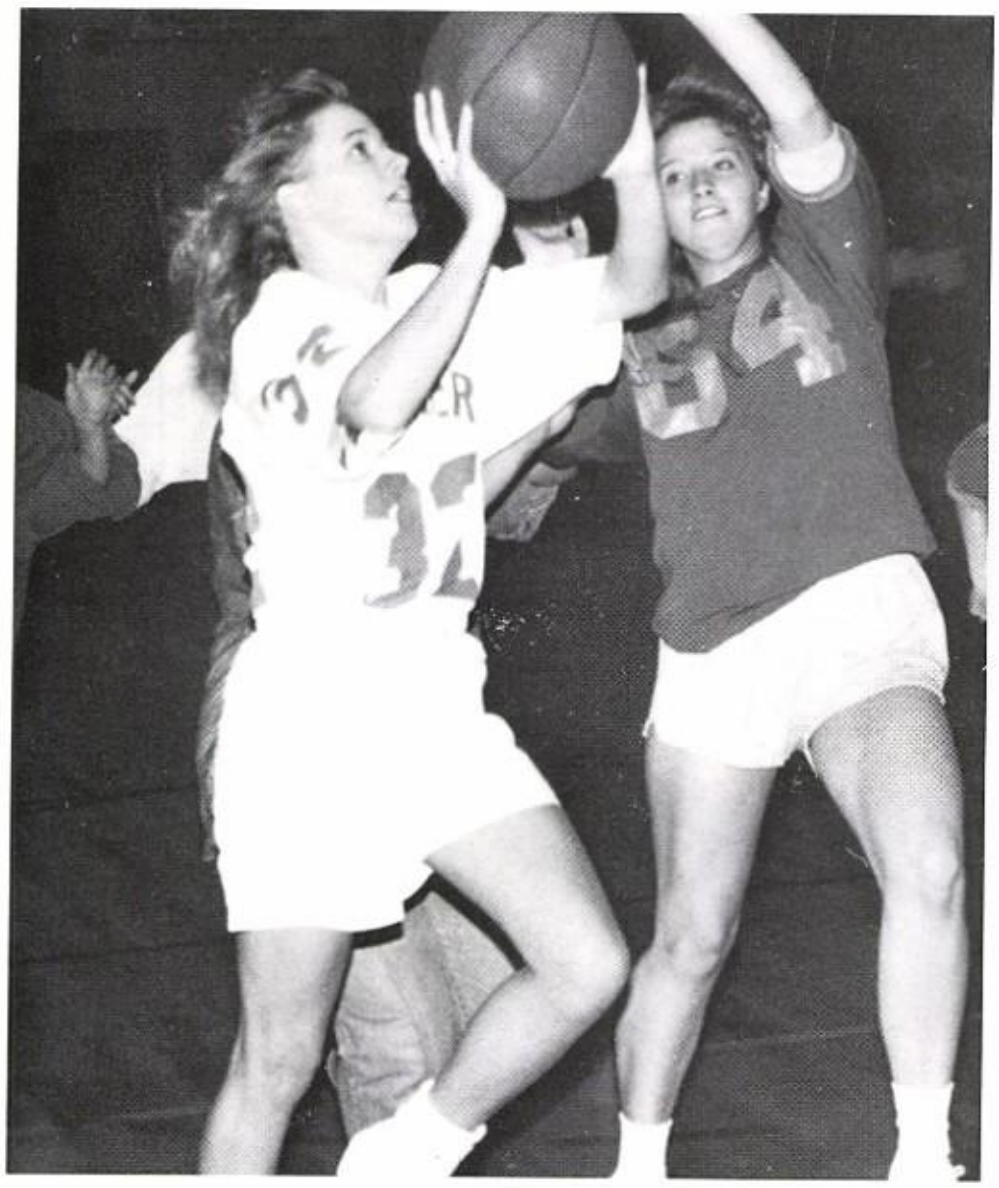
in Bucketball



Although the game had changed from football to bucketball, the excitement and entertainment were still there. Junior and Senior guys who acted as cheerleaders and majorettes kept not only the crowd rolling but their team's spirits high. Although Seniors won 24-16, no team walked off the loser, as the profits of the game went toward the Junior-Senior Prom.

Two Points: Senior Evette Hostetler (#32) goes up for a layup as Junior Jennifer Dollar (#64) tries to block.

A chilly December served as a fitting end to 1987. Basketball games took up the majority of the month as girls and boys traveled to such places as Leonard, Prairiland, and Denison.

Clubs were having their annual Christmas parties along with food and toy drives. Band members enjoyed a festive awards banquet, and VOE presented an open house.

Exchanges of gifts and cards were numerous as students and teachers looked forward to a nice holiday with family and friends.

"Is This Love?" Is Theme

Ringing in the new year signifies the end of a long holiday break; however, this was not the case in 1988. School bells rang on schedule January 4 and 5 as students and faculty got back into their regular schedules. Those bells were not heard, however, for the next four school days as the weather turned to ice and snow. Once the roads cleared, North Lamar students and faculty were back in class, and attention focused on mid-term exams, basketball, and the annual Valentine pageant.

Excellence: Ms. Katie Bryant was named Spanish teacher of the year for the state of Texas.
"Is This Love?" Students and sweethearts enjoy the Valentine dance.

Scandals Fill

The year has been full of scandals and controversies. Americans were forced to take an in-depth look into politics, religion, economics, and even personal values. Whether directly or indirectly, these current issues effect student life.

During the summer months, students spend a lot of time nestled on the couch in front of the television. This summer, however, found most turning off the soaps in order to watch Iran-Contra Hearings of Capitol Hill. The star of televised committee hearing, Lt. Colonel Oliver North, was asked to explain his involvement in a controversial arms-for-hostages trade deal with Iran, commonly known as terrorist enemy of the US. North was not the only political official under fire; however, President Reagan seemed to suffer a convenient lapse of memory when questions of his prior knowledge of the arms trade agreement. Investigations by the House committee led to many resignations, consequently, causing Americans to question other policies of the Reagan administration.

The election of '88 filled headlines of papers and magazines as candidates Vice-President George Bush, Robert Dole, Richard Gephart, Micheal Dukakis, Jesse Jackson, Pat Robinson, Paul Simon, and Gary Hart spent millions of dollars in campaign funds hoping to capture votes. Free political media coverage is a candidate's dream, unless, of course, it is negative, as in the case of Democratic candidate Gary Hart. The *Miami Herald* uncovered an affair between a very married Gary Hart and model starlet Donna Rice. His scandalous actions caused Hart to withdraw from the Presidential race in May, only to re-enter again in December.

In October, focuses changed from politics to economics. The New York Stock Exchange had experienced record-setting highs during the previous months, but shocks were felt throughout the investment world as the Dow dropped a record 523 points on October 19. The bottom had dropped out, and economists began to prophesy about the Depression of 1990.

While political and economic leaders prayed for answers, yet another scandal was uncovered in the religious community. Chairman of PTL (Praise the Lord) television network, Jim Bakker was removed from his job after it was discovered he had been paying Jessica Hawn to keep quiet about their brief affair. Other allegations concerning Bakker began to pour into the media world, in one of which it was discovered that Bakker and his wife Tammy Faye had been taking millions of dollars from the PTL network, which in turn forced them to auction their personal possessions, including an air-conditioned dog house, which sold for thousands of dollars, to repay their debt.

America's attention was also focused on the homefront. When Sara Beth Whitehead, who had been contracted to serve as a surrogate mother, refused to give up the baby she had had to the couple who had originally paid Whitehead $10,000 to have their child. Various moral questions were raised as

the courts were forced to decide whether the surrogate mother or the couple she had agreed to give the baby to should receive custody. In the end, it was ruled that it was in the child's best interest to live with the couple who had arranged its birth while still allowing Whitehead visitation; furthermore, surrogate motherhood was ruled to be an illegal practice.

Although the year was full of scandals and controversies, there were happy stories, also. For instance, Baby Jessica was safely rescued after being trapped in a small well for several days.

Superbowl: Washington Redskins defensive end Dexter Manley (#72) puts the pressure on Denver quarterback John Elway during Super Bowl XXII, maneuvering Washington to a 42-10 stampede over the Broncos.

Seniors Elect Bush

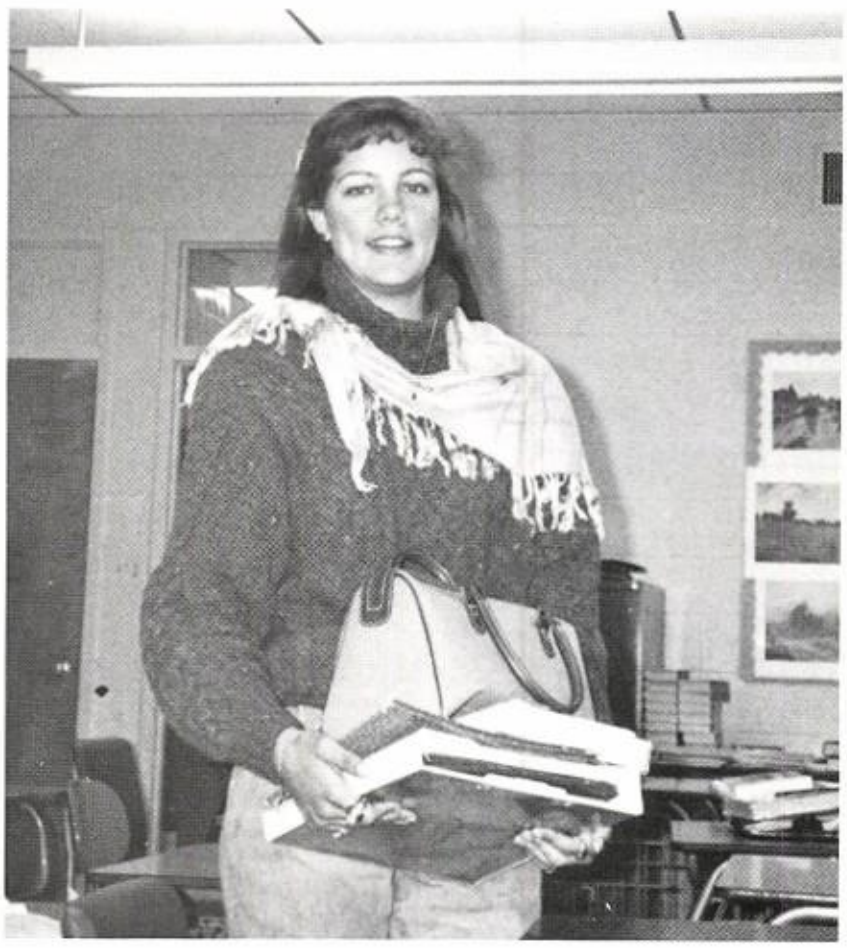
Each class has its own unique personality. The class of '88 was polled to find out members' favorites; some of the answers were surprising, some not, but each is reflective of the senior class and their own unique preferences.

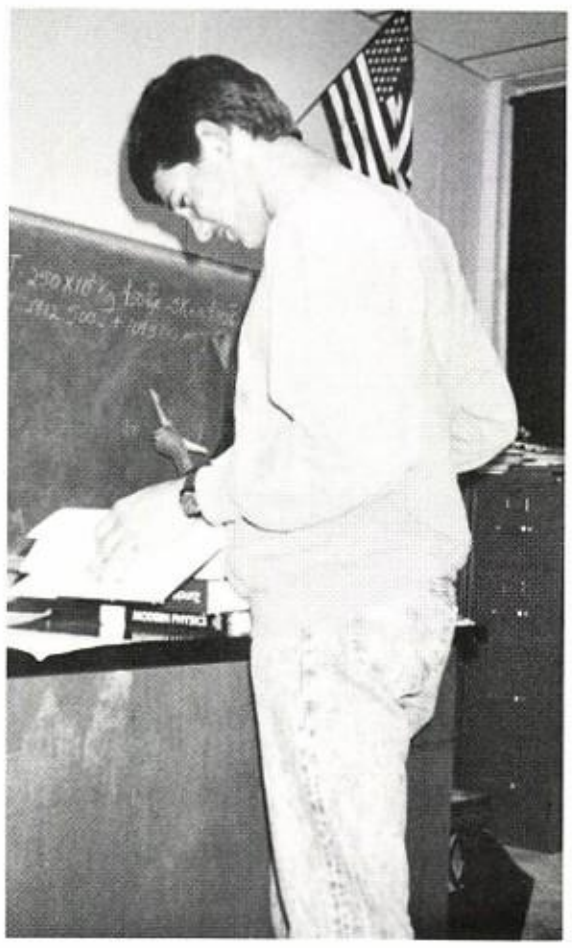
Teenagers are often the target of ad campaigns for the latest fads, movies, songs, or clothes. A walk down the hall or a drive down Lamar Avenue will show just how up-to-date teens are.

Some of last years' fashions have been pushed to the back of the closets, while still others remain in style. For instance, bows still remain the rage and are joined this year by sparkle of rhinestone barrettes. But those flowered jeans that once bloomed everywhere are definitely out-of-season.

No girls' wardrobe would be complete without the additions of a few new styles. Mini skirts that were a hit last year continue to get shorter with new ruffles and full skirts. Multiple T-shirt outfits are a necessity for any fashion conscious girl with a wide variety of styles to choose from.

Accessories are constantly changing also. Scarfs are incorporated as belts and wraps to add to many outfits. High laced-up shoes in the fashion of hiking boots make the perfect completion to today's fashionable styles.





Versatility: Tuesday Smallwood adds a scarf to complete the ensemble.
(Top Right) **Bottom Basics:** Mike Peace wears the latest in stone-washed jeans.
Footworks: Lace-up shoes complete almost any outfit.

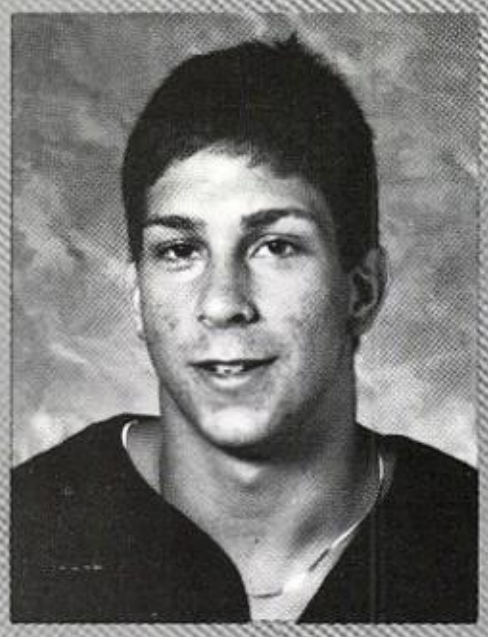
Mrs. Lee Ochoa
December 6, 1930 to March 28, 1987

On March 28, 1987, students and faculty alike were saddened at the news of the passing of Mrs. Lee Ochoa. Having given fifteen years to the students of North Lamar, her cheerfulness and dedication will always be remembered. Perhaps few individuals have given so much of themselves to our school. As Youth for Christ sponsor, she helped guide students not only in academics but taught them the high Christian ideals which she herself believed in so strongly. Even after the loss of such a friend at the hands of cancer, we can still look back with fond memories of the joy which she brought to all of us.



Tony Johnson
September 10, 1969 to September 13, 1987

He had a charm,
A special gleam,
That no one else
Could reach
It seems.

He had it all
At the tips of his fingers.
Yet God the Lord
Had different intentions.

He was taken by God,
Who puts us all here,
To serve a purpose
Which to us is unclear.

Though parting is sorrowful
The Hope still within
That we may meet him
Again . . . As we were . . .
Friends.

Athletics

With hard work and determination, the many athletic teams of North Lamar provide the student body with spirit and the drive to succeed. Leading by example, they are the driving force behind most student activities and are a constant source of inspiration both in and out of uniform. They are competitors "On the Move."

Girls Track Advances to State

Panther Girls' Track team easily went to state, qualifying in three events: the 800 Meter, the One Mile, and the Two Mile. Sabra Lands and Rebecca Ricketson competed in the 800 Meter, with Sabra placing Third and Rebecca placing Fourth. Panthers Dominate Paris

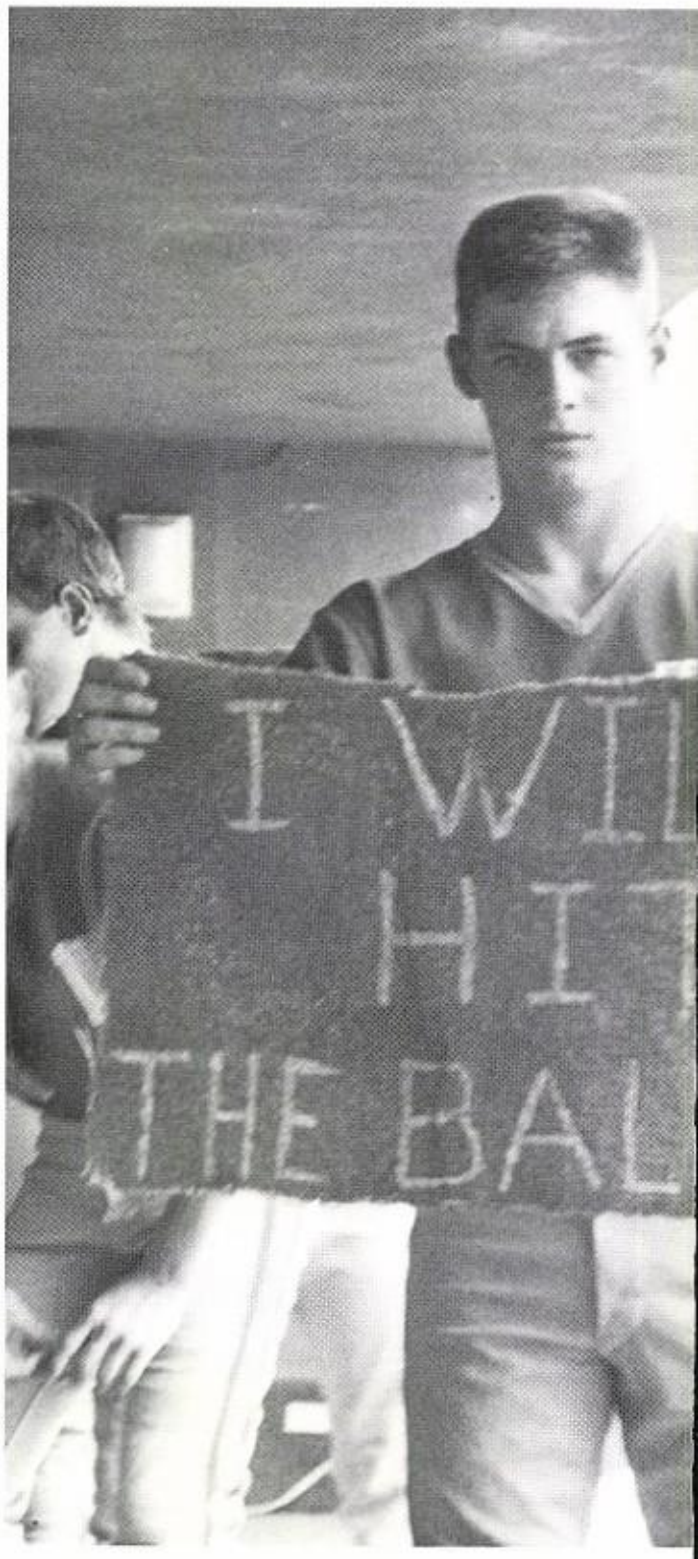
Batter up! The Panther baseball team was not only up at the plate, they were out on the field. A surprising season sat enticingly in the gloves of the varsity team. After an unforgettable season of wins, the teasing rain-delays, both at area and state quarter finals, seemed to pop up at every turn. With the help of team motto, P.A.W.S. (pride and work equals success), the spirit of the team and fans soared. Not only was the season successful, but the baseball diamond proved to be a stage where the Panther baseball team could shine.

As the first game crept near, the first victim, in the long list of victims, met defeat - Prairiland. That, however, was only the beginning. The Panthers kept the winning streak flowing. Not only did they find themselves the District 5-AAAA East Zone Champions, but after a best two-out-of-three series with Gainesville, they now held the District Title. The determination of the team didn't end here. The mighty Panthers led a paved path to a Bi-District win over Dallas Hillcrest and an area victory over Carthage - a one-game, winner-take-all, match.

Spirits were strung high, as the tension rose for the next bout, which was not only the Regional Playoff, but the ultimate in rivalries against Paris High. The time had then come. As Toby Deupree stated; "We knew before the season started, we were the best team, but we had to beat Paris to prove it." The Wildcats took control in the first of three games; however, the Panthers didn't take it sitting down. On the next day, NL sought and achieved revenge. When the dust settled, the scoreboard read 15-8. The final game still remained - who would hold the ticket to Austin? On June 6, that question was answered - North Lamar 5, Paris High 2; the title and the trip belonged to the victorious Panthers.

Sweat on their brows, determination in their eyes, and pride in their hearts, the Panthers took to the field of the State Semi-Finals, with great vigor. The 117° heat rising from the turf couldn't hinder team spirit; however, the tides had turned, and despite a valliant effort, Panthers lost to Ft. Worth Brewer, 8-1.

Win or lose, North Lamar accomplished many things in the first year of AAAA. Coach Alan Morris stated, "Getting there has to be tougher than winning there."



One Step to the Top: Clint Bryan shows the strategy of the Panther team.

On September 4, Panthers arrived in Commerce, ready to face the Tigers. Hopes were high, and the team was looking for a victory at the season opener. Despite an impressive showing, Panthers fell to the Tigers 27-10.

The following week, looking for redemption, Head Coach Tom Plunkett and his team turned their sights to Prairiland Patriots. After a devastating first quarter led by halfback Clint Bryan, who rushed for 178 yards and four touchdowns, the Patriots laid down their arms and accepted a 38-7 defeat.

With heads held high and spirits soaring, North Lamar began preparations for Homecoming '87. The hapless victim was to be the Hugo Buffaloes. As exciting as any Texas-Oklahoma clash, Panthers staged an impressive drive through the mist and mud in the final minutes to carve out a 15-14 victory over the Buffaloes.

After two consecutive home victories, the blue and gold packed their bags and headed to Clarksville to take their show on the road. Panthers staged an impressive first half against the state-ranked Tigers, but again, the boys in blue came up on the short end of the stick, 32-3.

Trying to forget the previous week's defeat, Panthers looked for a large crowd and the home field advantage to carry them over the Wildcats from Sulphur Springs. With just minutes left in the fourth quarter, Panthers rallied and began to eat away at the Sulphur Springs lead. Yet, in the final moments, their last drive died on downs, and the Panthers fell to the Wildcats by a score of 47-39.

Enheartened by their best start in many years, Panthers began to prepare for the district battles to follow. The '86 season in this new AAAA class had been a difficult one, but this year players and fans alike now would be different.

Hosting the West Mesquite Wranglers to begin district play, Panthers were riding high and ready to roll. And that they did, to the tune of a 43-42 victory.

Looking to deal out a little more justice, Panthers headed to McKinney for a date with the Lions. The Number 2 ranked Lions thought to make easy prey of the Panthers, but ever so swiftly, the Panthers proved otherwise, and the fight was on. Yet, when the dust had cleared, and the last horn sounded, the Panthers had again come up short, 30-12.

Not intimidated by the Tigers, the blue and gold thought to redeem themselves in Terrell. Indeed, the first half, the Panthers shut down the Tigers and looked as if they were headed for victory. But in the last half, the desperate Tigers came to life and clawed back to steal the 31-14 victory.

Next in the shortening list of foes were the much heralded Yellowjackets from Rockwall. As the Jackets swept into town, a determined Panther team, looking for a playoff berth, took the field again. But it was not to be, as the Panthers were left with a stinging defeat 50-6.

In a game which was to determine "the bragging rights for Lamar County," the Panthers squared off against cross-town rivals, Paris Wildcats. The Cats were red hot after an upset victory over McKinney, and watched Panthers arrive with fire in their eyes. But fire and doubts both were quenched when Clint Bryan took the opening hand off and out ran the Paris defenders for a touchdown. Unfortunately, it was to be the only bright spot in the evening for the Panthers who were defeated again 56-6.

Despite a season record of 3-7, Panthers had dazzled friend and foe alike on the field. It was a kind of magic not seen by NL fans in many years.

An explosive opening game victory over Chisum Mustangs seemed to herald a bright season for North Lamar's Pantherettes, but the following weeks would provide a roller-coaster ride of emotions for both players and fans alike as the Pantherettes encountered fierce competition both at home and on the road.

The final high-point of the season was a devastating 80-33 victory over West Mesquite Wranglers. With moderate success in a 5-5 district record and a young team consisting of only two seniors, Pantherettes should experience even greater success in the coming years.

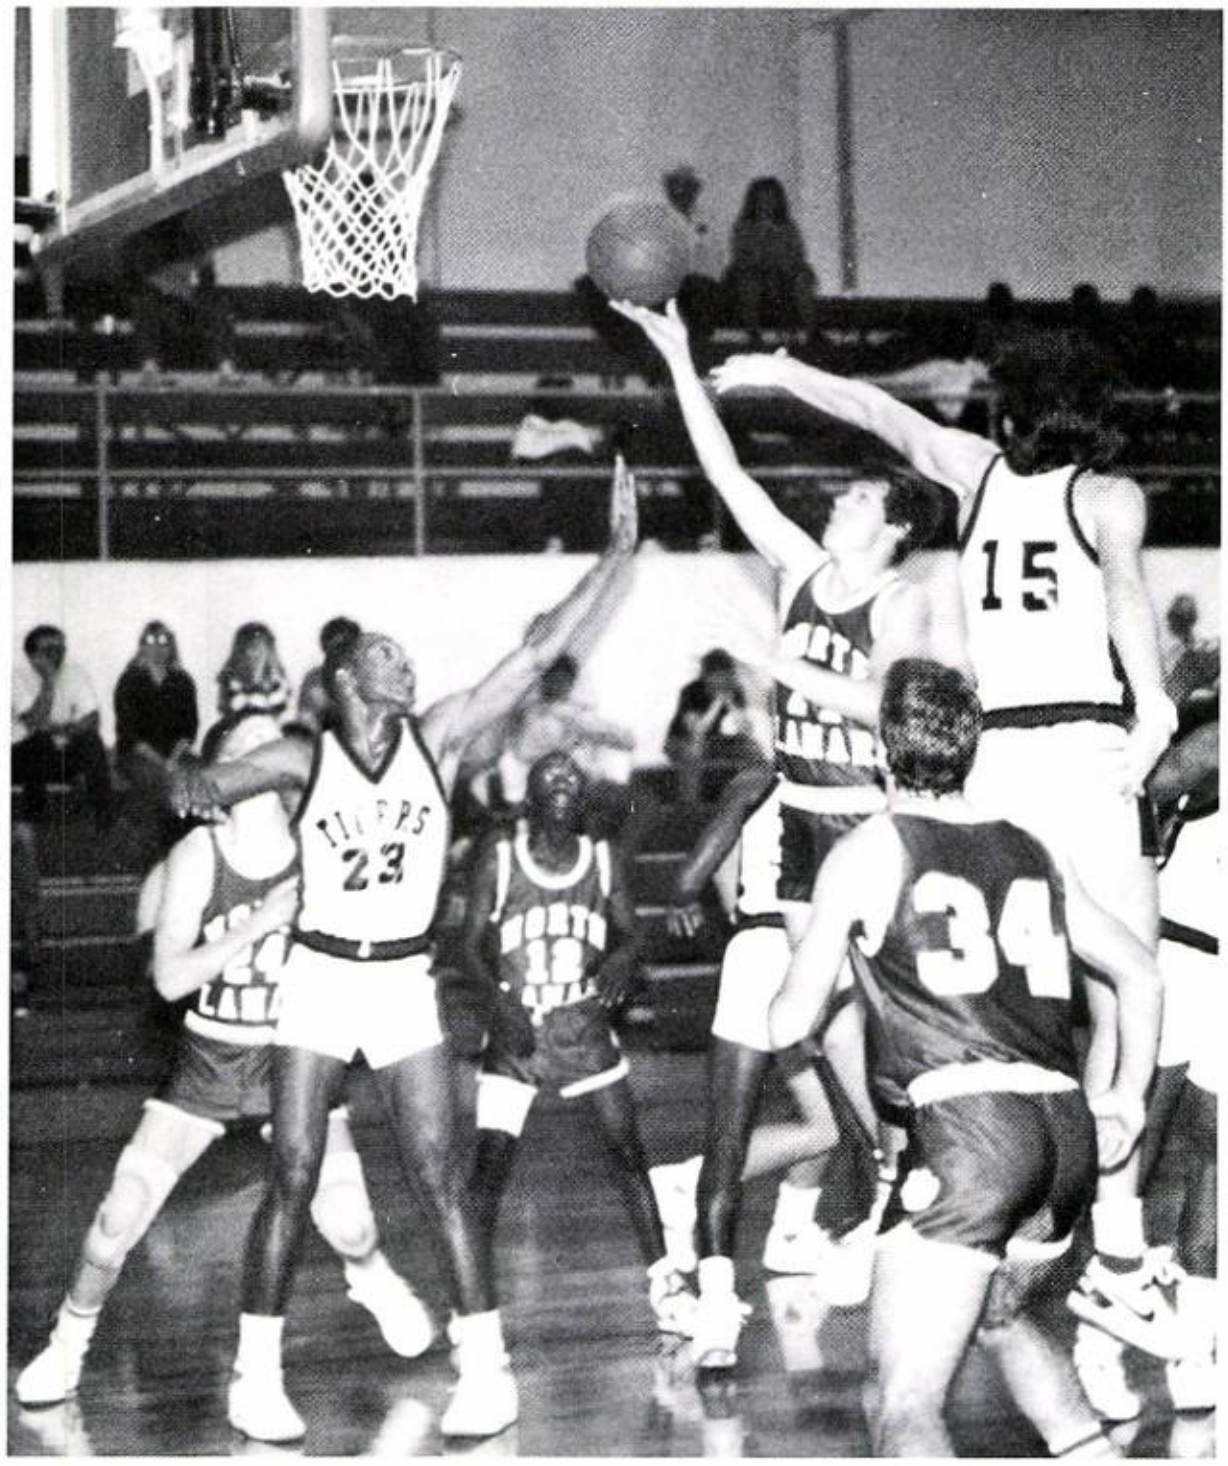
# of New Panther Head Coach



With new head coach Johnny Lands at the helm, North Lamar Panthers steered for what many thought would be the most successful season in many years. Four returning seniors and a much heralded corp of Juniors rounded the team destined for success, but it wasn't to be.

Even after weeks of intense practice, Panthers repeatedly found themselves unable to put together the necessary momentum to find victory. Two early victories in district play were the highlights of the season as the Panthers ended with a record of 5 wins and 22 losses.

Academics

Making the grade: that's what it is all about. Class to class, room to room, the settings change, and the lessons differ, but the academic excellence never varies as students and teachers remain "On the Move."

Administration

Working Behind the Scenes

"The White House" as the administration building is often referred to guides and oversees the business of North Lamar ISD. Under the supervision of Mr. Roy Chadwick, the district is constantly "on the move" with changing laws and numerous educational reforms to deal with, as well as the always changing needs of the student population. The administration demonstrates its concern for the well being of the district and gives special efforts to assure that the whole district benefits from any changes they implement.

Members of the North Lamar ISD School Board are: (Front Row) Mr. Terry Hill, Secretary; Mr. Terry Temple, President; Mr. Jesse Swindle, Vice-President; (Back Row) Superintendent Roy Chadwick; Mr. Bob Wright; Mr. Mark Jones; Mr. Dick Frierson; and Mr. Phillip Risinger.

North Lamar ISD Superintendent is Mr. Roy Chadwick.

Assistant Superintendent for Business is Mr. Darrell White.

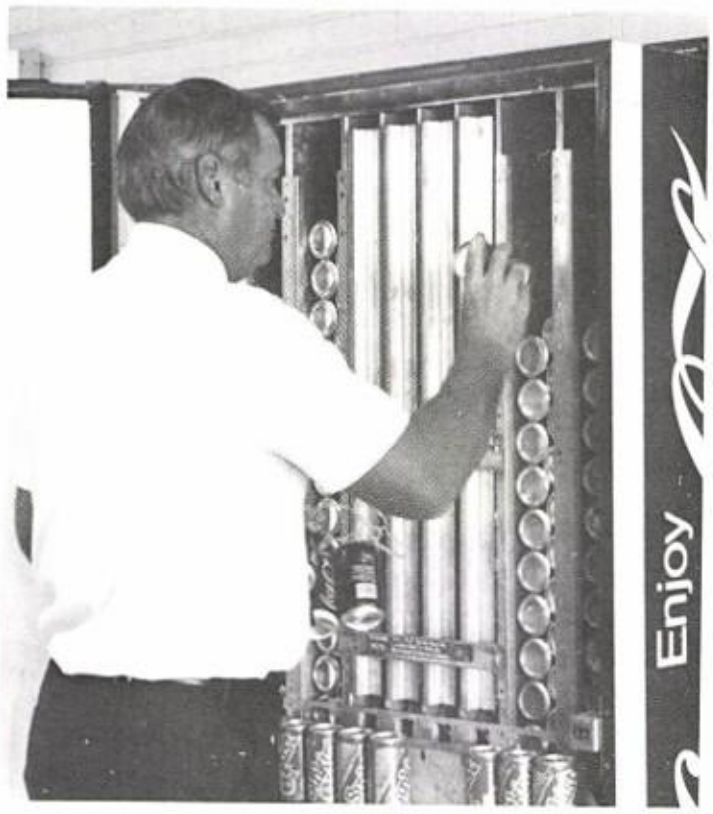
Principals

Supporting Youth

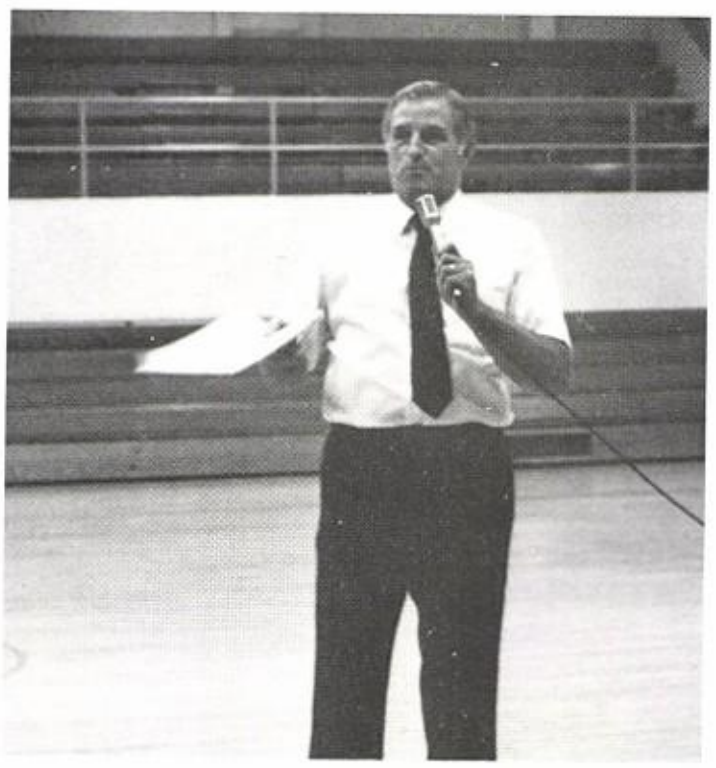
North Lamar welcomed Mr. James Dawson as new high school principal after the resignation of former principal Mr. Doug Lane. Mr. Dawson's ominous six foot four frame loomed in the hallway as students were encouraged to behave properly for the fear of actually having his strong forearm behind a paddle encourage them to do so. After a week or so as students became acquainted with the new principal, it became obvious that he was really a very businesslike man. Since Mr. Dawson's arrival, the attitudes and spirit of NL students have been enhanced as students have begun to emulate his obvious leadership skills.

North Lamar High School Principal is Mr. James Dawson.

Assistant Principal is Mrs. Virginia Bolton.



Assistant Principal is Mr. Thomas Moffitt.



That's the Way it Is: Mr. Thomas Moffitt discusses school policies during a class meeting.
(Middle) **Somebody Has to Do It:** Mr. James Dawson shows that a principal's work is never done.

Languages

Keys to Understanding

Have you ever stopped to think about the special ways which people communicate? Speech and writing are the most obvious ways in which people convey ideas, and probably the first things that come to most minds when asked that question. Whether you speak English, *"parlez francais,"* or *"habla Espanol"* communication in some form is essential; however, it is too often taken for granted.

Required to take four years of English, students learn and review basic grammar skills, literary works, and writing form and styles. For upperclassmen, though, the biggest assignment of the year is often the dreaded research paper! But, looking back, it never seems as bad as before, and the experience gained is certainly worth the effort.

Mathematics

$$Y = mx + b$$

If the words hyperbola, equation, scalene, difference, or function immediately bring tears to your eyes - you're not alone. Math students everywhere feel this frustration at one point in time; therefore, the burden is on the teachers to make learning more fun and agreeable, a job which the NL Math department fulfills with pride.

Mrs. Barbara Eatherly received a grant from GTE on behalf of the Math department. With this $15,000 grant, Mrs. Eatherly and Mrs. Trudy Hilliard traveled to many conferences to evaluate math labs and software before actually buying any equipment. "The manipulatives that are there are available for teachers to check out for classroom use. The purpose of the lab is to make math real to students, by showing them through science the necessity of math," Mrs. Eatherly explained

Science

Training for Technology

The principles of Einstein, Newton, Galileo, and other scientists have shaped the study of science which students study in courses such as Physical Science, Chemistry, Biology, and Physics. Although some of these ideas seem earth shattering to high school students, they are only the basics of what forms our advancing technological society.

What, how, and why are frequent questions asked by science students. Teacher explanations are often not enough to satisfy such questions; however, the new extended science laboratory and scimatic lab let students get hands-on training and see for themselves that they too can perform similar experiments as Einstein, Newton, and Galileo.

Mrs. Trudy Hilliard received a grant from GTE on behalf of the NL science department. This grant allowed Mrs. Hilliard to travel to many places such as Boston, San Antonio, Denver, and Phoenix where she attended conferences to learn the relationships and techniques of combining mathematics and science. Mrs. Hilliard said, "Barbara Eatherly and I are learning more about each other's fields and how to help one another teach our subjects . . . this could only benefit the students. In addition, we had a lot of fun."

Social Studies

The World at a Glance

Looking at the past, dealing with the present, and applying that to the future is a basic summary of Social Studies. In classes like American and world history, teachers try to make happenings and people seem life-like through films and role playing activities. Often, government and economics students learn about the structure of our political and economic systems from guest speakers to class discussions.

Mr. Dennis Hodgkiss, American history teacher said, "History is the study of change over a period of time. We study history to learn about ourselves, other people, to get alternatives for decision making, to find out why things are the way they are, and to understand human behavior. A proper study of history integrates the past, present, and future, because to understand where we are going, we have to understand where we are and where we have been."

Fine Arts

Developing Culture

For those who have an inclination for the arts, North Lamar offers an excellent foundation. Allowing aspiring talents to express themselves, teachers provide direction yet at the same time offer freedom for individual expressions.

With the growth of North Lamar came a wider diversified student body; therefore, the demand for an art class was heard, and future Picassos and Van Goghs took to the classroom with paints and brushes.

P.E. and Health

Physical Fitness

Learning about the body and its needs are the essentials learned in health and physical education classes. In health class, physical hygiene, dangers of drug abuse and alcoholism, and the necessity of physical exercise are emphasized, while P.E. classes allow students a break from the monotonous sit-down classes, allowing them to play such games and sports as volleyball, basketball, roller skating, and ping pong.

Vocational

Classes for Careers

Deciding your future is usually a difficult decision. In our advancing society, numerous career options are available for students. Vocational courses help prepare students for placement in an occupation after graduation.

Classroom instruction teaches essential skills, allows hands-on training, and is often supplemented with field trips, as well as actual job placement. Besides earning a little extra spending money, vocational students receive class credit, and, at the same time, prepare for the future.

Essential Skills

Whether students decide to continue their education in a college setting or jump straight into the working world, the acquired skills learned in business courses such as Typing, Recordkeeping, and Accounting are often useful. Secretaries, Nurse

Helping Others

With the never-ending phone calls and bombardment for absentees or tardies, it is amazing that the school secretaries keep their cheery composures, but you'd never find one without a smile or helping hand. These ladies provide an indispensable service, and with rare thanks, they are the hidden heroes.

The school nurse is always willing to provide care for those who seem a little under the weather with a warm smile. Regardless of whether a student needs a bandaid or just a pat on the back, Mrs. Stewart, our school nurse, is constantly on call.

Cafeteria Workers and Custodians

Necessary Services

There are two important groups of people that are often taken for granted at North Lamar. They are the cafeteria workers and custodians. Cafeteria Workers are: (Front Row) Isabel Shipman, Lila Ann Brakebill, Catherine Moore, Evelyn Milling, Pat Roberts, (Back Row) Billy Daniels, Betty Ward, Pam Porter, Babe Rodgers, and Sandra Freeman.

Who's Who

Although each student is necessary to keep the momentum going, there are always those that give a little extra. Whether their achievement comes from sports, academics, or personal lives, they are essential in keeping North Lamar "On the Move."

Mr. and Miss North Lamar are Erik Moore and Gena Coursey.

Yacht Beau and Sweetheart are Dale Loughmiller and Tuesday Smallwood.

Homecoming Queen is Gena Coursey.

Nominees Weather Rain

"It was the best of times; it was the worst of times . . ." This familiar quote very sufficiently describes North Lamar's Homecoming activities.

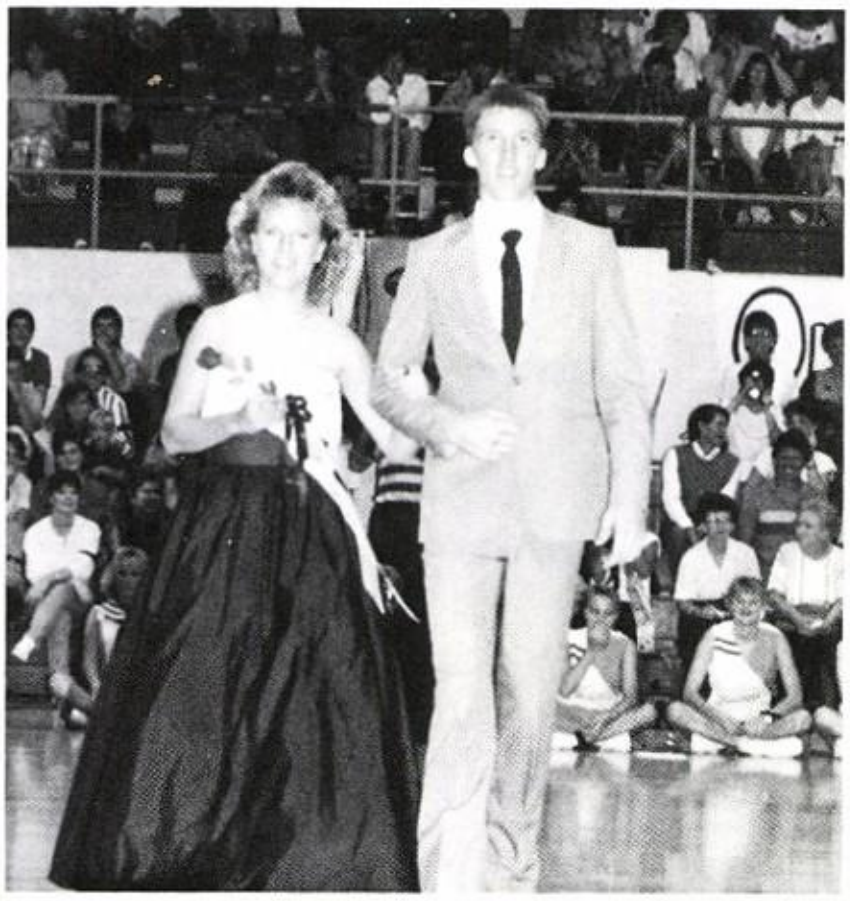
The death of Tony Johnson, the rainy weather, and the feeling of success as the Panthers were winning the game caused many confused emotions.

Anticipation of the five queen nominees was to the hilt. Each second of each quarter of the game lasted longer and longer until that special moment finally arrived.

The band bordered the track to play their heart-warming ballad for the queen nominees and their escorts. Each couple made their grand entrance. The time had come. ". . . it was the spring of hope; it was the winter of despair."

Homecoming Queen Nominee Cindy Carico is escorted by her father Bobby Carico.

Homecoming Queen Nominee Missy Norrell is escorted by her father Butch Norrell.



Homecoming Queen Nominee Jennifer McFadden is escorted by Stephen Jones.

Homecoming Queen Nominee Tuesday Smallwood is escorted by her father Bobby Smallwood.

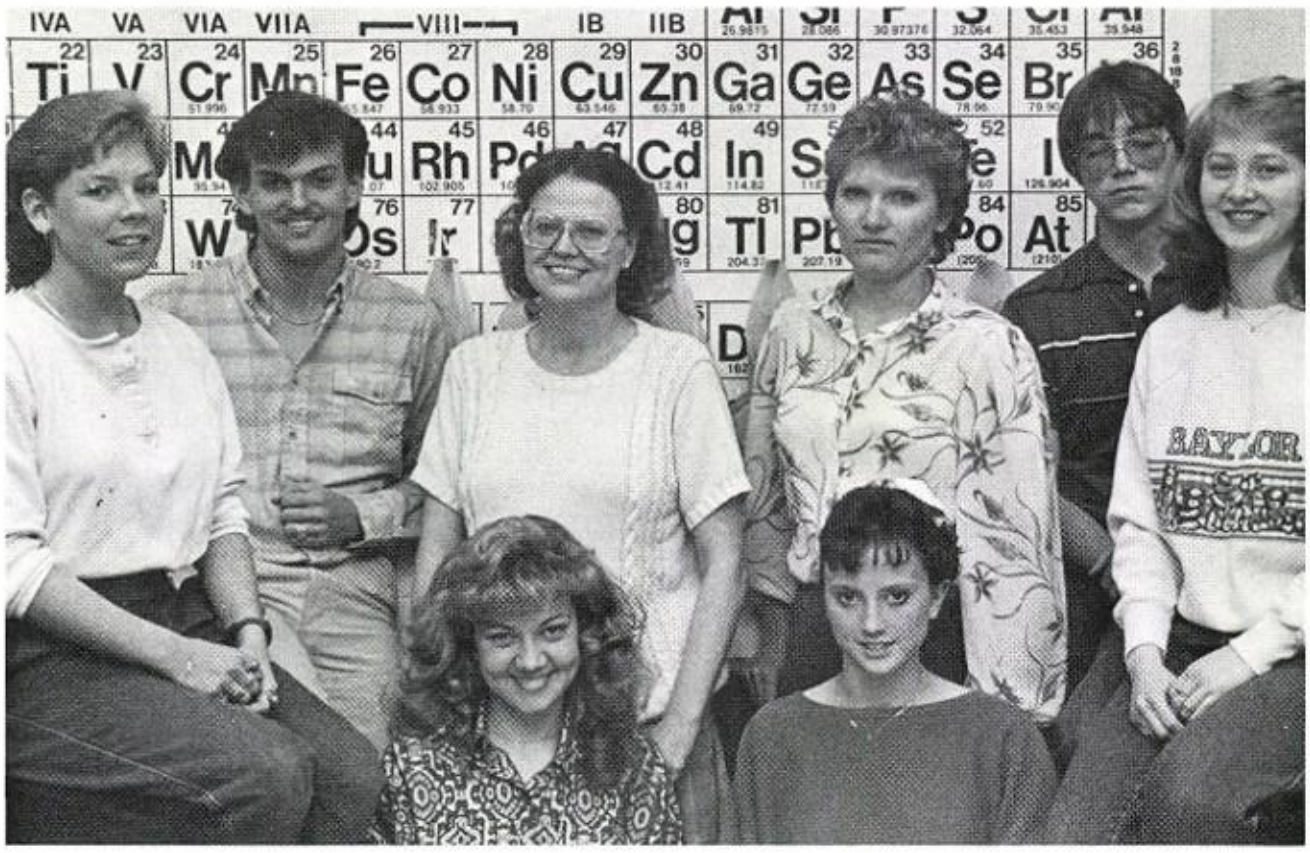
Academic Achievement

North Lamar students have long strived in many aspects, including academic excellence. Reading numerous books, studying complex mathematical theories, and continually practicing are among a UIL academic participant's regular schedules.

Along with competiveness, fellowship, and academic awards, UIL participants usually find themselves crawling out of bed at 4 A.M. in order to arrive on time. But once they arrive at a meet, NL students are distinguished as fine competitors, taking many trophies.

The hard work of seven UIL team members resulted in their qualifying for State Competition in Austin, on May 8-9. State competitors were: Erin Swint, Number Sense; Adam Routon, Calculator and Number Sense; Ronnie Nutt, Calculator; Rachael Baccus, Ready Writing; Kenneth Shirley, Spelling; Erik Moore, Feature Writing; and Brett Johnson, Persuasive Speaking.



Science Fair Winners are: (Front) Shannon Barolet, Rebecca Ricketson, (Back Row) Missy Norrell, Sean Sadler, Mrs. Trudy Hilliard, Mrs. Kathy Svoboda, Joey Hoffmann, and Erin Swint.

Band

No Comparison

Summer band commenced on schedule with the usual pressures of half time perfection. Contest was two weeks earlier this year, so that meant extra hard work with positive rehearsals.

The pride of the North Lamar Band never fails. The excellent ratings at contest made the proud marchers work hard to please their audience for the rest of the season.

Leadership, character, and dedication all add up to the common goal of self-assurance:THE NORTH LAMAR BAND.

Drum Majors are: Gena Coursey and Leah Stranathan.

Key Club

For Friend-ship's Sake

From summer projects which include parking cars at the Lamar County Fair, to winter projects which include ringing bells for the Salvation Army, North Lamar Key Club always has a full year of projects and activities.

Under the excellent leadership of Mr. Dennis Hodgkiss, one project in which Key Club never fails to participate is Everett Harvest Festival's Haunted House. Several Key Clubbers seem to find this project the most enjoyable of the year. They come early on the Saturday of the festival and begin building the walls and rooms, and by the time they're through a normal elementary classroom has been transformed to an eerie spook house.

As the year comes to a close, ten lucky Key Clubbers will pack up their belongings and journey to Oklahoma City for the 1988 Key Club Convention. Once there, they will join with over 2,000 other Key Clubbers from the Texas-Oklahoma District to compete for service awards and vote on upcoming district officers. Key Clubbers OK in OKC!

Keywanettes

Reaching to Make a Difference

Starting in the early summer months, NL Keywanettes provided hundreds of service hours to the community and school - from Bowl-a-thons to telethons. Ranked in the Texas-Oklahoma District Keywanettes top ten for the first time ever, and having Samantha Berry (District Governor) and Tuesday Smallwood (Lieutenant Governor) both represent them on district level, North Lamar Keywanettes experienced their most successful year yet. Their year has had several rewarding projects, but as Samantha Berry put it, "Adopting a four-year-old leukemia patient was the most meaningful project to me."

With the year winding down, Keywanettes will once again go to convention; both sponsors agree it will be an interesting trip. "The strangest things happen at convention, such as Mr. Hodgkiss 'doing' native Hawaiian dances," stated Mrs. Hindman, or as Mrs. Eatherly reported, "having a sponsor that gets the only kiss given by a Keywanette beau at convention . . ." The '88 Keywanette Convention at DFW Mariott will doubtlessly result in many more interesting stories for '88-'89.

Math-Science Club

Minds of the Future

Math-Science Club is not for the normal student. It is an organization for the elite student who has taken a higher level of Math and Science courses. The highlight of the year in Math-Science Club occurs when members of the club are allowed to throw pies at the student body's "favorite" teachers. This is a proven method for fundraising and also provides excellent entertainment to the school. Math-Science Club also sponsored a spirit chain and the annual bonfire before the Paris football game.

Back in the Saddle Again

Student Council

Providing Service

Traveling to Nacogdoches this summer, Student Council members returned with many exciting stories of their week-long stay at Stephen F. Austin College. Their Summer Leadership Conference resulted in some very interesting antecdotes.

Remonda Dangerfield came back very excited and full of good stories. She recalled how Wesley Carter, Student Council Vice-President, hated the food and, as a result, ate Fruit Loops cereal all three meals every day.

Jeff Martin knew how to make the best of a bad situation. He nearly froze to death in those frigid dorms. "He ended up stuffing towels in the air vents," Remonda related.

From painting parking place numbers and Panther paws on the pavement to sponsoring spirit drives, Student Council tends to "out-do" themselves very well each year.

Automobile Repair

Upon walking in the door the pungent smell of grease and the whirring sound of motors running instantly alerts the senses. These students often have hamburger cookouts, sell raffle tickets, and even repair teachers' cars for a small shop fee. They also wash school buses to raise funds. Aides and Assistants

Helping Hands

Help! That's what teachers constantly yell for. Guess who is there to save the day - the teacher's aides. Teachers are ever grateful for their helpers. These students grade papers, run off copies, and even average grades.

You may also hear such cries for help coming from the office where there is always an office assistant on the job. From braving bad weather while gathering absentee slips to the never-ending job of filing papers and answering calls, they are always needed. At home after a very busy day, Stacy Hollis answered the phone still saying "North Lamar High School."

Teachers' Aides are: (Front Row) Gena Coursey, Remonda Dangerfield, Kenny Earp, Mark Caldwell, Tresa Wilkins, (Second Row) Carol McLemore, Rosalyn Webb, Adelia Moses, Lana Edelhauser, Sandy Temple, Pam Hines, Krista Stinnet, (Back Row) Beth Casey, Pam Overall, Kim VanDerWilt, Darrell Caldwell, Jenni Witter, Catherine Killingsworth, and Dondi Jones.

Schedules: (Left) Office Assistant Stacy Hollis waits to hand out schedules at the beginning of school as Chad Fleming assists.

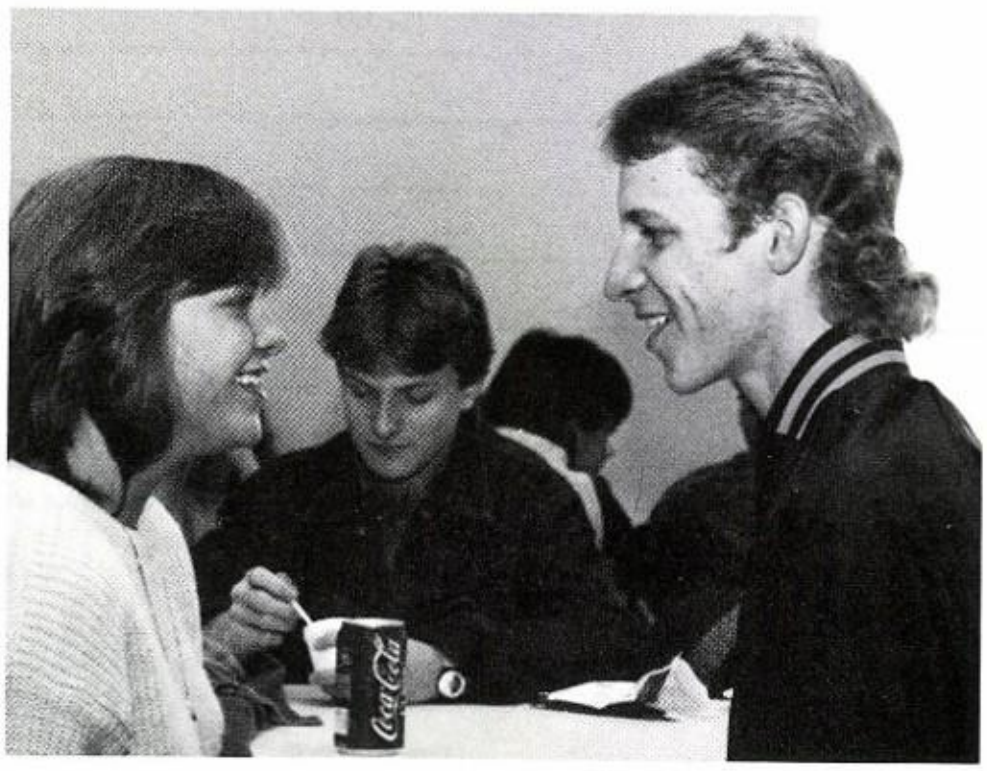
Sweethearts

Dating, as seen through the eyes of the onlooker, often seems to be a very humorous mix-up of emotional catastrophes.

For some, dating creates many hilarious memories. Cindy Carico recalls, "Once when I was on a date, he leaned over to kiss me, and I called him by another name. I was so embarrassed." Amy Abbott remembers, "My date and I went to the Fish Fry to eat. I ended up spilling my drink on my date and ketchup all over myself."

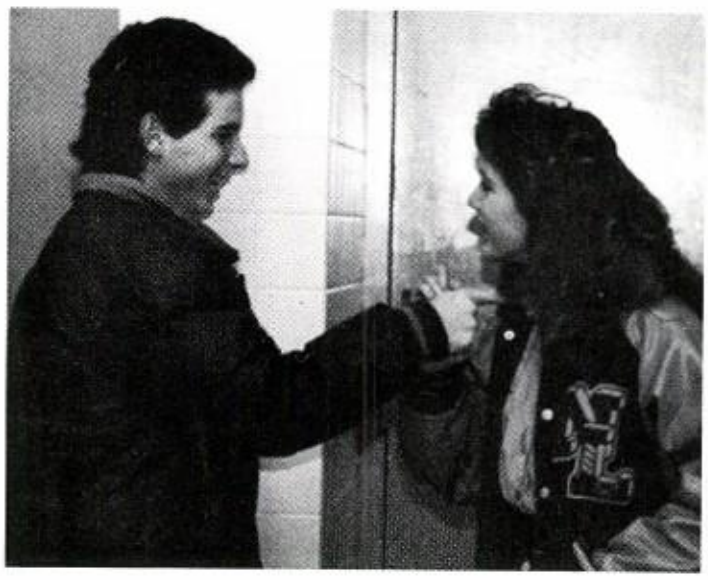
The onlooker is often in a safer position.



"You WILL Marry Me?" Melissa Crews and Robert Moses share a seemingly happy moment.

"You did WHAT Saturday Night?" Pete Renfro tells Nicole Fendley his REAL reason for not picking her up.

"Now Do You Understand?" Dondi Jones tries to explain her idea to Robert Mahan.



"No, Really You Do Have Something on Your Shirt": Lee Exum, a typical prankster, plays a trick on Sonya Edwards.

"Ho! Ho! Ho!" Lisa Leonard expresses her Christmas wishes to Jerry Pierce.

EXPECTATIONS

. . . we all have them, and sometimes things happen to change them.

But there are some expectations that never change—like the fun and comfort of a best friend, the satisfaction of a good test grade, or the chills a school song brings when sung across a lighted field.

At TU Electric, we realize you have expectations of us, too—like having the electrical power ready when you turn on your computer, put on some records or plug in the blow dryer. And when the power does go off, we know you expect it to be restored quickly.

And it will be. That's just part of our commitment to provide quality electric service to customers.

Capturing Energy For Tomorrow's Needs

For more than a century, Babcock & Wilcox has provided innovative products and services to help meet the world's growing power generation needs.

Over the years we've supplied nearly 18,000 boilers and nuclear steam systems to utilities and industries worldwide. And our design modifications, customer training programs, replacement parts operations, and engineering studies are helping customers increase the efficiency and prolong the working life of their existing equipment.

We're preparing for tomorrow's energy needs by seeking new ways to tap the power of the sun, the sea, and even the heat of the earth itself. Additional research focuses on making better use of fossil fuels, including America's most abundant energy source—coal.

As an operating unit of McDermott Incorported, B&W is a part of a major energy services company, supplying not only power generation systems, but insulating products, oil and gas production facilities, specialty steel tubing, and advanced process controls. Each advancement we make contributes to a brighter tomorrow.

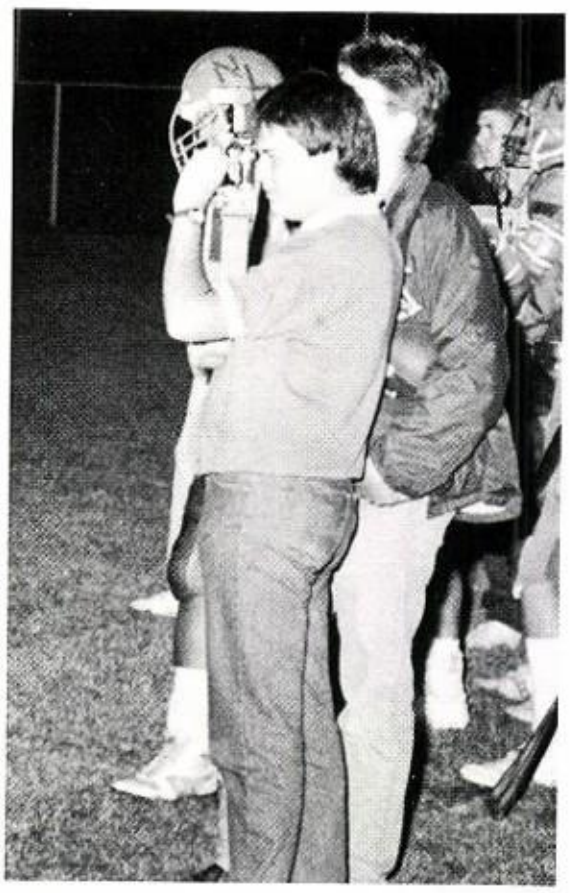
New Staff Positions Created

Yearbook production has in the past been put entirely on the editor or co-editors. This year, *Yacht* Staff tried to reduce the load of the editor by delegating certain jobs thus creating the positions of Managing Editor, Organizations Editor, Advertising Editor, Public Relations Manager, and Photographer.

It is our desire as the yearbook staff to entertainingly and precisely cover the events of the school year. By incorporating such extras as polls, world events, and dating, we hope that you can look back at this book and recall your own special memories.

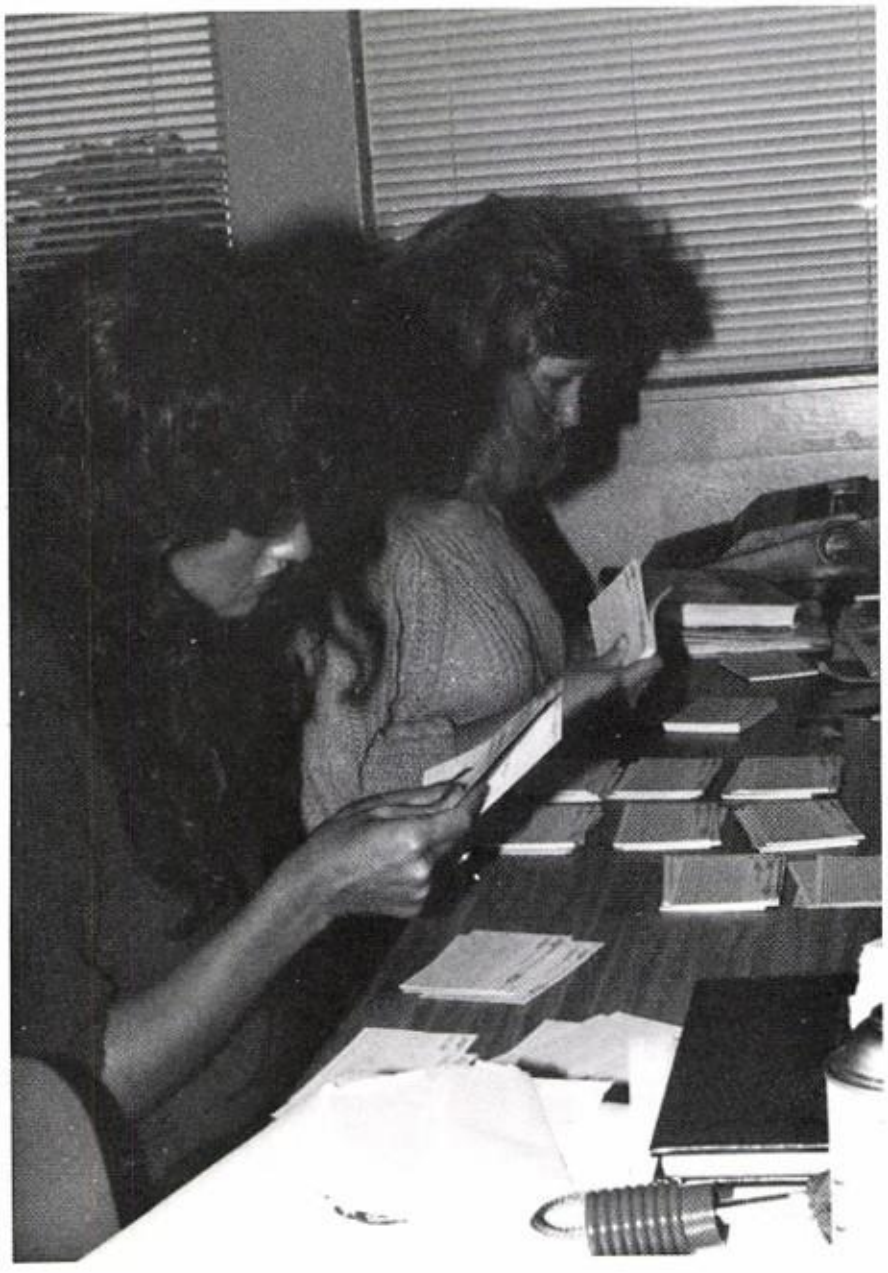
Early in the fall, Samantha Berry, Editor, chose the theme "On the Move" and designed the cover and endsheet design. The type remained Helvetica. An additional autograph page was added for students, and 248 pages were necessary to effectively cover the year.



Head Photographer: Chet Cook is Head Photographer for 1988 *Yacht*.

***Yacht* Staff members are:** (Front to Back) John Capps, Tuesday Smallwood, Sponsor Rhea Brown, Ronnie Nutt, Arthur Cunningham, Jodie Strouse, Samantha Berry, Gena Coursey, Bryan Young, Kim Hooton, Cindy Carico, Jacquejoy Henderson, Mattie Hullinger, Christine Workman, Julie Ferris, Dale Loughmiller, Tisha Ricketson, and Missy Norrell.

Editorial Staff members are: Samantha Berry, Editor; Ronnie Nutt, Managing Editor; Mrs. Rhea Brown, Sponsor; Mattie Hullinger, Advertising Editor; Gena Coursey, Organizations Editor; Cindy Carico, Public Relations Editor; and Dale Loughmiller, Photographer.



Indexing: Gena Coursey and Kim Hooton put index cards in alphabetical order.

"How does that Sound?" Staff member Christine Workman asks Mrs. Rhea Brown to review her sports write-up.

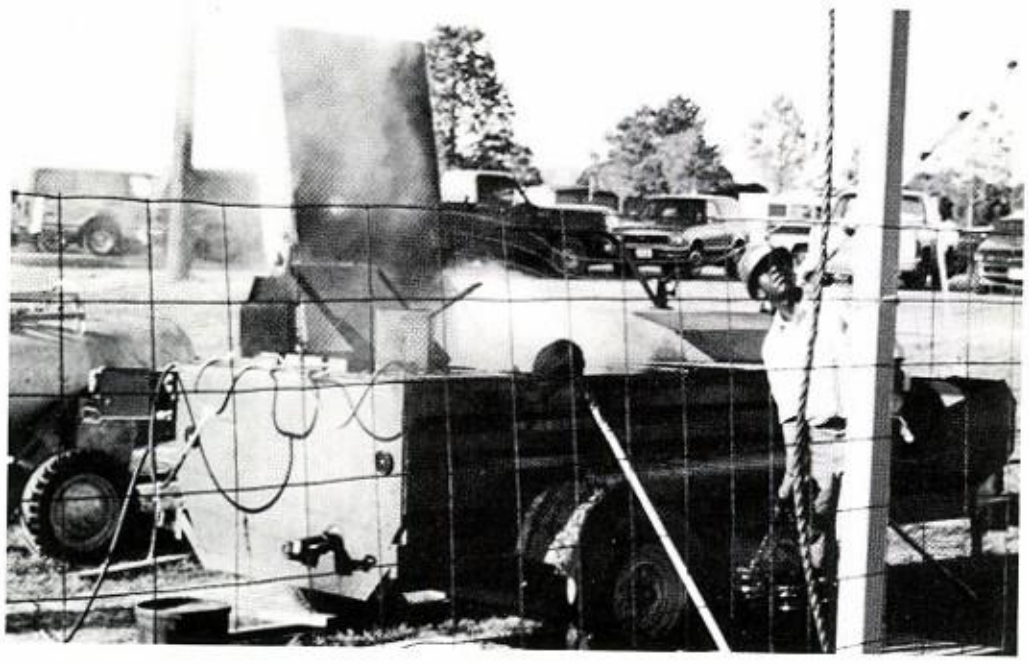
On the Move . . .

Renovation and construction are common occurrences at North Lamar. With an increase in student population, classes are continually outgrowing provided classroom space. Students and faculty arrived in September to find extended science labs, a new scimatic lab, and construction beginning on the fine arts complex.

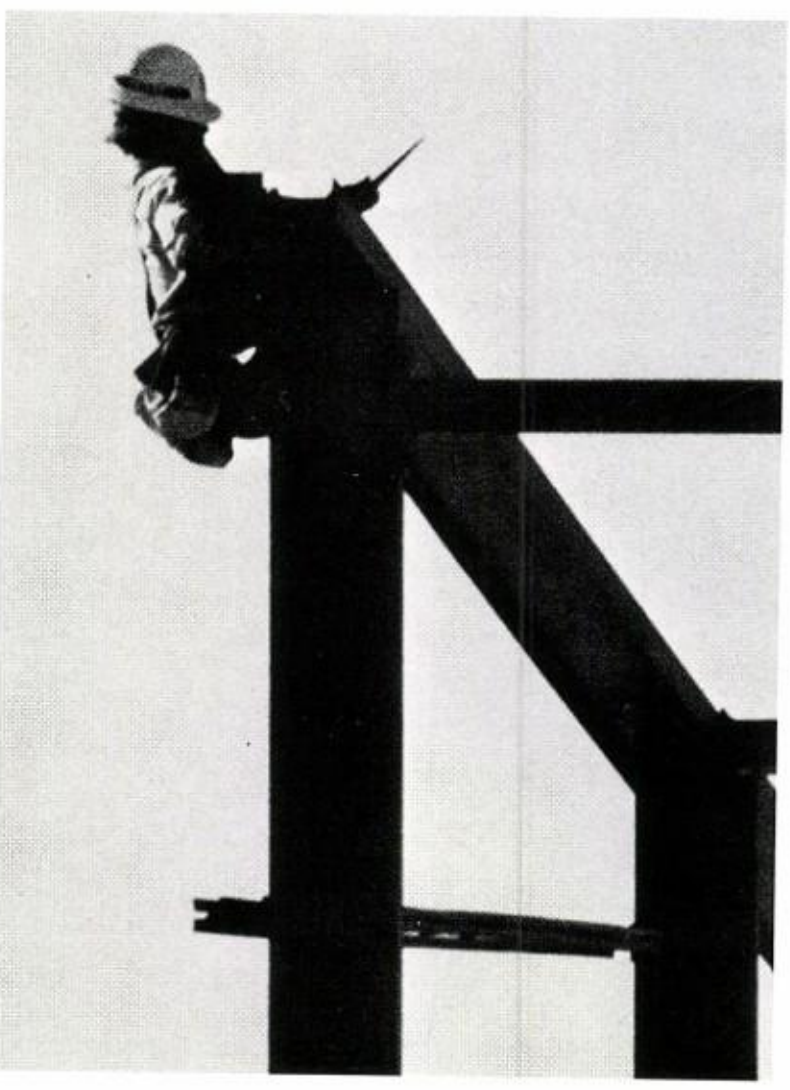
Other changes have also been occurring at NL with addition of Art to the curriculum. Students desiring a fine art credit but not with musical or dramatic talent could find ways to express themselves in drawing or painting. Semesters of Creative Writing and World Literature were also added so that students could gain a more diverse education.

Soon the halls will be cleared for summer, but the work won't end there. School officials will be planning for another school year, and North Lamar will continue to be "On the Move."

Water Works: Horticulture students Jason Tucker and Karry Mullens lay out pipes to water newly planted pines.

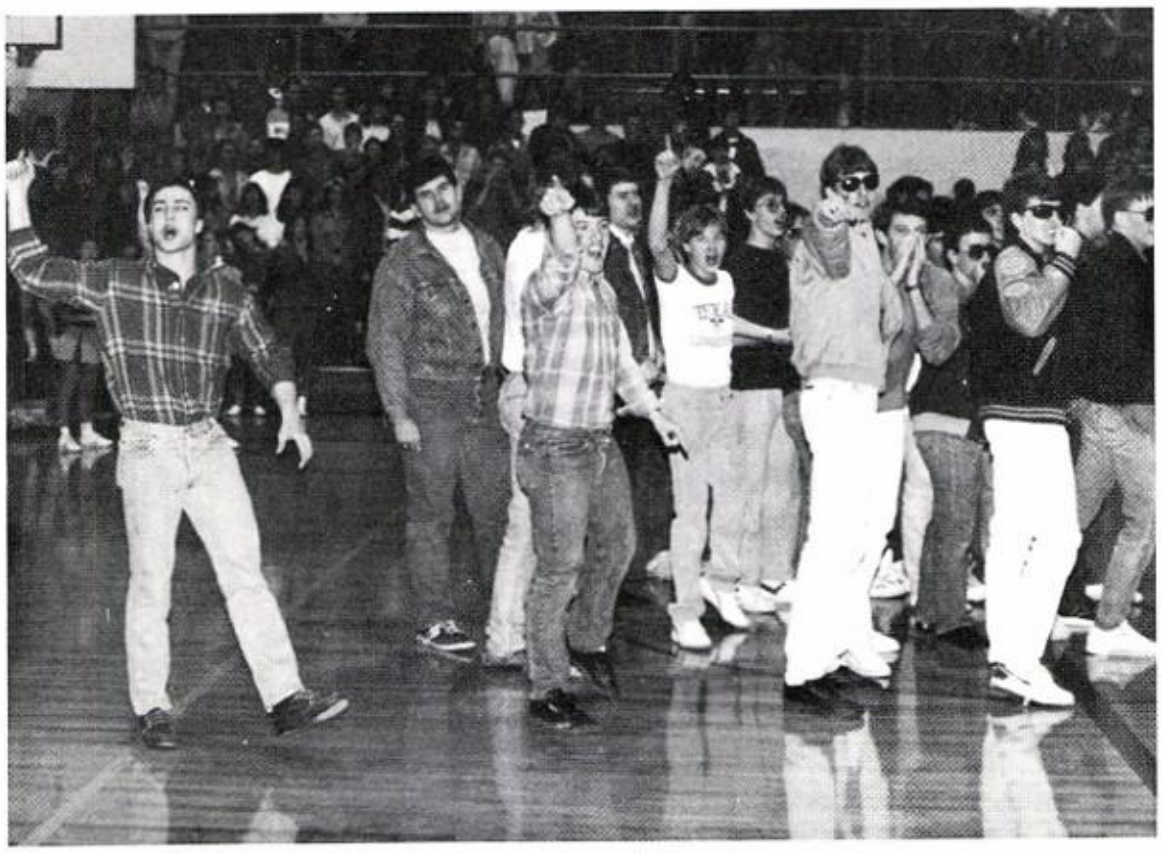


The Pits: Roof repair has been going on and the fumes from the pit, as students affectionately call it, often overwhelm passing students.

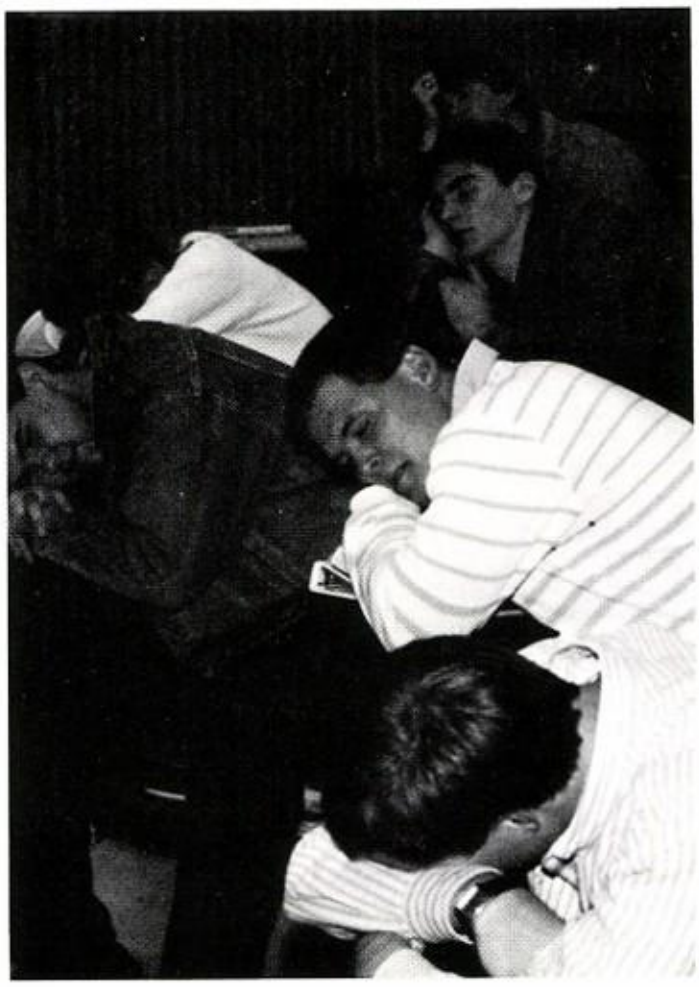


Before: Construction on the new band hall and fine arts facility began early in the year.

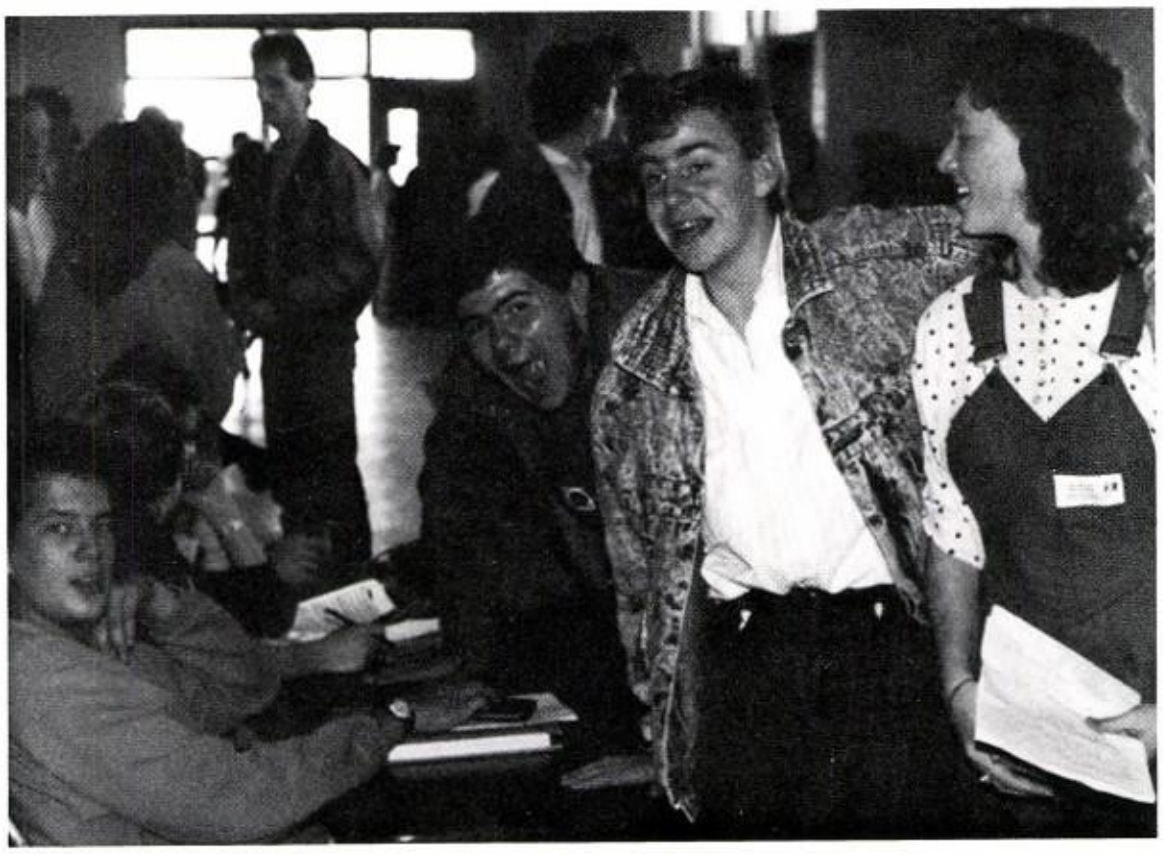
After: Band and choir members happily move into the new building in February.



Too Cool: Key Clubbers build spirit for the Paris High basketball game.



B-O-R-I-N-G: Seniors show just how tired they are in Mrs. Leanne Stone's English class.



Time Out: Christoph Witte, J Knight, Tim McNeal, and Mattie Hullinger enjoy their lunchtime break.

Viola': Guard members Mindy Marshall and Sharmin Fendley enjoy their pep rally performance.

Trigonometry? Pre-Calculus students Keith Roach, Jennifer McFadden, Cindy Weaver, Erik Moore, and Mike Peace diligently work on a Trig assignment.

(Top Left) **Exchange Students:** Anja Strotkamper, Christoph Witte, and Gesine Hartz are welcomed to North Lamar as exchange students.
Get the Message? Girls' Cross Country team demonstrates their confidence as they travel to Austin.
(Bottom Left) **Team Spirit:** Panthers proudly wear T's on their helmets in remembrance of teammate, Tony Johnson.

Memories have been made and certain goals attained. We have pushed ourselves to limits that we had no idea that we could achieve. The guided trip by teachers and administration has made the ride a little smoother; however, it was not without a few bumps and pot holes along the way. As we get closer to our final destination, we will recall these times and hopefully maintain the momentum we've achieved and continue our paces toward excellence.
